

Santa Cruz Competitive Intelligence Report

Mukund Vegunta

Market Overview:

Pricing Trends:

- The **Close/Original Price Ratio** remained relatively stable, fluctuating slightly between approximately 0.97 and 0.99, indicating that properties are consistently selling very close to their original list price.
- The **Price/SQR ft Ratio** has experienced some variance, reaching a peak in April 2026 at **\$783.32** before settling to **\$731.38** in May 2026.

Market Activity:

Competitive Landscape:

- Top Agent:** Robert Aldana leads the group with the highest sales volume (**\$16,487,000**) and the most closed transactions (**11**).
- Top Office:** Coldwell Banker Realty holds the top position, leading in both total sales volume (**\$75,819,154**) and overall sales count (**52**).

Key Takeaways:

- The Santa Cruz competitive market is very **distributed among agents and offices**, with 18 agents having over \$5,000,000 in sales, 11 agencies having over \$10,000,000 in sales, and 7 offices having over 20 sales since February 2026.
- While new listings fluctuate throughout the year, closed sales steadily increase heading into warmer months, indicating a **surplus demand for Santa Cruz properties in warmer months**. This is also shown by lower days on market during these months, indicating that demand is high and properties are being bought quicker.
- The average Price/SQR ft Ratio in Santa Cruz (\$731.38 in May) is consistently significantly higher than the average Price/SQR ft Ratio in California as a whole (\$536.13), indicating that **land and property size itself in Santa Cruz is a key strength**.
